

Knoppix User Guide Thanks for the guide, I also ran into the issue of parted appearing to resize the drive, but in fact not resizing it. The fix that I used is to first mount the drive in knoppix, then unmount it. Sean Deasy » Expanding a drive within a VMWare image Is there any way to recover an overwritten linux file? I uncompressed a tar file which overwrote some of my files. I read somewhere you can unmount your home directory. linux - recovery of overwritten file - Super User SecTools.Org: Top 125 Network Security Tools. For more than a decade, the Nmap Project has been cataloguing the network security community's favorite tools. In 2011 this site became much more dynamic, offering ratings, reviews, searching, sorting, and a new tool suggestion form. This site allows open source and commercial tools on any platform, except those tools that we maintain (such as the ... Security-oriented operating systems - SecTools Top Network ... Specifications Platform Operating System Display Modular Bay Device Memory Hard Disk Battery Weight Detailed Specifications Hard Disk Drive Graphics High Definition (HD) Audio ESPRIMO™ Mobile V5535 - fujitsu.com Unionfs is a filesystem service for Linux, FreeBSD and NetBSD which implements a union mount for other file systems. It allows files and directories of separate file systems, known as branches, to be transparently overlaid, forming a single coherent file system. UnionFS - Wikipedia This page provides general information about notable Linux distributions in the form of a categorized list. Distributions are organized into sections by the major distribution they are based on, or the package management system they are based around. List of Linux distributions - Wikipedia Disk Images with Pre-installed Systems We are trying to collect a minimal hard disk or floppy disk image for all free supported operating systems that Bochs can run. bochs: The Open Source IA-32 Emulation Project (Get Involved) Bitpipe.com is the enterprise IT professional's guide to information technology resources. Browse this free online library for the latest technical white papers, webcasts and product information to help you make intelligent IT product purchasing decisions. Bitpipe - Information Technology - Technical white papers I finally found enough time to release the new version I've been working on for past monthes (maybe even years). You may not see a lot of changes but trust me, there are quite a few under the hood. New stable version 2.9 - LinuxLive USB Creator Septon is a Linux distribution which provides users with a pre-configured computing environment for surfing the Internet anonymously. It is based on Debian's "Testing" branch and it uses Privoxy, a privacy-enhancing proxy, together with the Tor anonymity network to modify web page data and HTTP headers before the page is rendered by the browser. DistroWatch.com: Put the fun back into computing. Use ... According to its website, "Tracker is a filesystem indexer, metadata storage system and search tool." "By using Tracker, you no longer have to remember where you've left your files. To locate a file you only need to remember something about it, such as a word in the document or the artist of the song. LUGM - Linux User Group of Mauritius Other Interesting Links Libre Graphics Magazine A print- and web-based magazine dedicated to graphic designers, media artists, photographers and web designers who use free and open source graphics software and openly licensed content. Tux Paint - Links Mac OS X. There are two ways to trust the CAcert root certificates: one from the command line, and one from the Keychain GUI. Each method requires that you use an account with administrative privileges. FAQ/ImportRootCert - CAcert Wiki About redWall redWall Firewall is a bootable CD-ROM firewall based on Gentoo Linux.
