

Touched With Fire Manic Depressive Stephen Fry presents this documentary exploring the disease of manic depression; a little understood but potentially devastating condition affecting an estimated two percent of the population. Stephen embarks on an emotional journey to meet fellow sufferers, and discuss the literal highs and lows of ...Stephen Fry: The Secret Life of the Manic Depressive - Top ... In a mixed affective state, the individual, though meeting the general criteria for a hypomanic (discussed below) or manic episode, experiences three or more concurrent depressive symptoms. This has caused some speculation, among clinicians, that mania and depression, rather than constituting "true" polar opposites, are, rather, two independent axes in a unipolar—bipolar spectrum. Mania - Wikipedia Tritype theory is relatively new, and few certified / professional Enneagram teachers include it in their material. Their approach is based on one central type. You can ascribe to just one, or having a main type and "influences" from fixes, but you need to remember this: Funky MBTI in Fiction — Touched With Fire: Marco [ISFP] The concept of a link between creativity and mental illness has been extensively discussed and studied by psychologists and other researchers for centuries. Parallels can be drawn to connect creativity to major mental disorders including: bipolar disorder, schizophrenia, major depressive disorder, anxiety disorder, and ADHD. For example, studies have demonstrated correlations between creative ... Creativity and mental illness - Wikipedia Schizophrenia Information > An Introduction to .
